### Ordering Procedures

Specific conditions of sale apply to the purchase of animals from the Animal Resources Centre. These can be viewed at [www.arc.wa.gov.au](http://www.arc.wa.gov.au). Animals will only be supplied when an Animal Ethics Committee approval number is provided. For GMO's, NLRD number may also be required. In order to supply promptly, sales are usually made on the basis of telephone orders, e-mails or on-line orders, but where a Purchase Order (PO) is supplied the order will be filled based on the PO. Please ensure that PO details match the initial order.

All orders need to be received by the latest 11am AWST for both Interstate and Local clients the day before despatch. This is to ensure that the Order Confirmation can be issued at 1pm AWST the day before despatch, for customer review. It is the customers responsibility to ensure ARC has the correct e-mail address for order confirmations.

Please contact Animal Resources Centre immediately if you find order information incorrect. Changes can only be made by 9am AWST on the day of despatch for Interstate clients and 8am on the day of despatch for Local clients.

Please note that the ARC does not despatch on WA Public Holidays

Some mice are sold subject to The Jackson Laboratory's Conditions of Use and also the Australian Patent Number (2004268530). Information regarding conditions of use is available at:

<http://jaxmice.jax.org/cou/index.html>

**Non propagation agreement.** Customers may be asked to sign a Non-Propagation Agreement if there are reasons for the ARC to suspect that customers are purchasing animals for breeding, except to obtain embryos or fetuses as required for research purposes. Annual Non-Propagation Agreements are available.

**Free shippers.** Any order of 80 or more mice of the same strain, age range, weight range, and sex, to the same delivery point will receive free transport shippers. No split invoices. Cannot be combined with other discounts.

### Cancellation of Orders

It is a policy of the Animal Resources Centre that once an order is placed by a customer it is a binding contract. We accept that orders may have to be cancelled but we will not accept a cancellation immediately prior to delivery or if animals, or animal products have been specifically produced under an 'Agreement to supply special mated animals'. If an order is cancelled under these circumstances the customer will be invoiced for the cost of the animals, or animal products. Cancellation of orders for animals older than 6 weeks will incur an invoice for the value of the animals.

**Age of Animals:** Birth dates of production animals are not recorded. Mice and rats are maintained in age cohorts relative to the week in which the animal is weaned. Weaning occurs during the week the animal reaches 21 days of age. If exact age, siblings or litter mates are required we will set up a specific order. Additional charges will apply. Animals may need to be reserved from birth so please allow for the extra time.

Please note that mice and rat stocks are held to 10 weeks. Prior notice is required for older animals. For animals 11 weeks and older please ask for a quotation.

**Orders can only be accepted at either an age or weight. If the weight of the animals is important please order by weight.**

**Surcharge:** A surcharge of 10% will be incurred for animals ordered within a weight range tighter than that specified in the price list. Animals required by weight not shown in the price list will be subject to a surcharge of 10% on the 'weeks of age' animal price. Animals are sold at the body weight requested but fluctuations will occur normally during transit and we cannot guarantee an equivalent bodyweight on arrival.

**Pre-mated animals:** Mating is determined by observation of a vaginal plug. Day 0 of pregnancy is the day the vaginal plug is seen. We are able to guarantee that 100% of mice and rats supplied after day 14 post-mating will be pregnant, however loss of litters can occur during transport. Conditions of sale for time mated animals can be viewed at :

[http://www.arc.wa.gov.au/?page\\_id=155](http://www.arc.wa.gov.au/?page_id=155)

**Credit Policy:** Please ensure your order is correct on receipt. In the event of transport losses or order abnormalities customers must notify the ARC within 24 hours. Replacement stock or credit will be negotiated. No responsibility will be accepted for late notification.

The Animal Resources Centre can, under no circumstances, accept the return of animals after despatch as they cannot be returned to the SPF barrier production units.

### Currently:

1. Our terms of credit on accounts payable is 30 days.
2. A Late fee of \$39.19 will apply to all accounts in excess of 30 days.
3. The ARC now accepts Visa and Master Card payments. There are no fees for VISA & MC payments.
4. Statements and invoices will be delivered electronically. Customers requiring paper copies will be charged a Paper Statement fee of \$4.90 for each item.
5. A handling fee of \$3.96 will apply to orders not submitted on-line.

**Aged Animals**

Animals 11 weeks and over are classed as aged animals. Animals 18 weeks and older being housed long term will be invoiced at 10 weeks then housing charges will be invoiced monthly. Please ask for a quotation. C57BL/6J mice are available in stock up to two years of age.

**Internal Institutional Breeding**

Pedigreed animals are available for Internal Institutional breeding, subject to completion of a breeding contract.

**Custom Strains Maintenance charges**

<b>Mice</b>	<b>\$14.55</b> per box per week basic husbandry	<b>Rats</b>	<b>\$21.85</b> per box per week basic husbandry
Additional services are provided on a fee for service or technician time basis.			

**Embryo Rederivation of rodents**

Rederivation of mice consists of a series of steps and is dependent on the strain reproductive characteristics and number of breeders supplied. For further information please contact ARC Imports.

**Cryopreservation of Embryos**

The total cost varies with the strain, reproductive performance and number of embryos required. A comprehensive quote is provided when these details are known. For further information please contact ARC Imports.

**Cryopreservation of Sperm**

A comprehensive quote is provided. Options available are validation to live pup and test mating males before freezing. For further information please contact ARC Imports.

**Animal Transportation**

**Delivery boxes - IATA compliant shippers: (subject to change)**

**Prices include gel packs**

<b>National</b>	large	<b>\$58.15</b>	plus divider add	<b>\$17.32</b>	<b>International</b>	large	<b>\$70.13</b> international shipper
	small	<b>\$31.56</b>	plus divider add	<b>\$14.55</b>		small	<b>\$58.23</b> international shipper

GST is not incurred on international shippers.

**Exports** - The ARC can ship animals with Health Certificates to most countries.

A comprehensive quote is provided on request. Contact [exports@arc.wa.gov.au](mailto:exports@arc.wa.gov.au)

**Importing Animals** -The ARC can source and import animals from within Australia or overseas. A comprehensive quote is provided on request. Contact [imports@arc.wa.gov.au](mailto:imports@arc.wa.gov.au)
